

TENDER DOCUMENT

Construction of Overhead Reservoir and Allied Works

Tender No. CPWD/OHSR/2026/001

Estimated Cost: Rs. 4.5 crore

Issued by: Central Public Works Department (synthetic sample for TAD demo)

SECTION 1 ? GENERAL

1.1 Scope of Work

The Contractor shall execute the construction of an overhead storage reservoir of suitable capacity with good quality concrete and standard finishing as per the relevant IS code.

The works shall be carried out in accordance with the attached drawing.

1.2 Priority of Documents

In case of conflict between the documents, the Bill of Quantities (BOQ) shall prevail over the Drawings and Specifications.

SECTION 2 ? MATERIALS

2.1 Concrete

The Contractor shall use suitable aggregate for the subbase and approved make cement for all reinforced concrete work. The concrete quantity for the overhead reservoir shall be 1200 cu.m as per the BOQ.

2.2 Reinforcement

Reinforcement steel shall be of standard quality conforming to the requirements specified elsewhere. The total quantity of steel reinforcement shall be 180 tonnes.

2.3 Primer and Sealant

Apply primer coat on the cleaned surface prior to painting. Seal all construction joints with sealant of approved type.

SECTION 3 ? EXECUTION

3.1 Drainage and Earthworks

The Contractor shall provide adequate drainage around the foundation and maintain reasonable tolerance on all excavation dimensions.

3.2 Access and Coordination

The Contractor shall have access to site during daylight hours. The Contractor shall coordinate with the supplier. They shall provide all materials required for the works.

3.3 Finishing

Provide fair finish on all exposed concrete surfaces. The surface shall be level to satisfactory standards.

SECTION 4 ? QUANTITIES SUMMARY

4.1 The total estimated cost of the project is Rs. 4.8 crore.

4.2 The concrete quantity for the overhead reservoir in the Specifications is 1500 cu.m.

4.3 All works shall conform to the particular specifications issued with this tender.

SECTION 5 ? TESTING AND ACCEPTANCE

5.1 The Engineer shall confirm with the Contractor. He shall approve the design drawings before the commencement of any casting work.

5.2 Any works found unsatisfactory shall be rejected. Reasonable care shall be taken in stacking and storage of materials.

5.3 The block work shall be of fair quality and level throughout.
